American Society of Mechanical Engineers  
(ASME)  

Code of Ethics of Engineers  

The Fundamental Principles  

Engineers uphold and advance the integrity, honor, and dignity of the Engineering profession by:  

I. Using their knowledge and skill for the enhancement of human welfare;  
II. Being honest and impartial, and serving with fidelity the public, their employers and clients; and  
III. Striving to increase the competence and prestige of the engineering profession.  

The Fundamental Canons  

1. Engineers shall hold paramount the safety, health and welfare of the public in the performance of their professional duties.  
2. Engineers shall perform services only in areas of their competence.  
3. Engineers shall continue their professional development throughout their careers and shall provide opportunities for the professional development of those engineers under their supervision.  
4. Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.  
5. Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.  
6. Engineers shall associate only with reputable persons or organizations.  
7. Engineers shall issue public statements only in an objective and truthful manner.  
8. Engineers shall consider environmental impact in the performance of their professional duties. NOTE THAT THE ASME ADDS A STATEMENT OF FIVE TIMES THIS LENGTH TITLED "THE ASME CRITERIA FOR INTERPRETATION OF THE CANONS"
